# PET Tiger-The Revolutionary Time Clock

Whether your business is family owned or a major corporate enterprise, you need **PET Tiger** to handle your payroll data collection and production tracking. It fits businesses of any size, from a few employees to thousands

## Fast and Easy Recordkeeping

No more double entry or paper timesheets to calculate. **PET Tiger** works seamlessly with accounting software. **PET Tiger** accurately and easily collects hours and piece rate payroll information using a variety of methods, like Barcodes, Proximity, or Biometric scans. Time in and out can be handled electronically in a matter of minutes each day with just a couple of scans. Piece work data is collected each time an employee (or crew) brings a bucket, lug, bushel, or bin, his barcode/tag is scanned. **PET Tiger** accumulates the records in real time (or daily) to provide quick access to labor force information for making important management decisions. This significantly shortens the time between the being work done and the printing of payroll checks.

## PET Tiger does it ALL – Compliance to Bonus Pay

**PET Tiger** handles minimum hourly pay requirements (by job, day or week,) irrigator exclusions and mandatory breaks. **PET Tiger** provides for regulations that vary from state to state as well as company policies. Bonus pay for employees, supervisors, or crew is easily calculated based on performance or quality. Differential pay is handled as well. Within the same records **PET Tiger** also tracks equipment usage.

PET Tiger's flexibility to receive data from multiple collection styles (like batch devices, smart phones or biometrics) within the same database handles companywide payroll . From the packing house to the office to the fields **PET Tiger** does it all.

- Paperless and Wireless
- Human Resources
- In the Field Hiring
- Badge Printing
- Decision Making Tool
- Homeland Security

## Simplified Payroll Data Collection

In real time or daily, **PET Tiger** data is uploaded onto your Server or PC. Upload can be done either locally or from remote locations via WiFi, internet, IP connection or cellular via smart phones. Data can then be reviewed and edited. Verification of pieces can be done on an employee or crew basis. The resulting data creates many related informative reports. No more manual data entry , the payroll process is reduced to minutes.

**PET Tiger** provides it's own audit trail!

Simplicity and flexibility are the key forces behind **PET Tiger.** Personnel learn the scanning procedures quickly and easily so they are much more receptive and willing to incorporate the system into their daily routines. With it's bilingual screens anyone can use it!

Most importantly, **PET Tiger** is adaptable and can be used by Growers, Packing Houses, Farm/Grove Management, Shippers/Packers, Vegetables, Nursery Vineyards, Row Crops, Orchards, Labor Contractors and any other Agribusiness.
